

PHOTON ENERGY GROUP

Photon Energy offers worldwide solar power solutions and services for all who want to fully harvest free energy from the sun. Our solutions and services cover the entire lifecycle of photovoltaic power systems.

We are active across the globe and have a proven track record of developing PV projects, building and commissioning solar power plants. Our O&M division provides operations and maintenance services to hundreds of MWp of solar power plants worldwide. Photon Energy also manages its own proprietary portfolio of 31.6 MWp of power plants in four countries across two continents.
