Title: Photon Energy develops and sells a 347 KWp project in Australia

Detailed data:

The management board of Photon Energy announces that its fully-owned subsidiary Photon Energy Engineering Australia agreed with a real-estate investor on the sale of a 347 KWp project in the Australian Capital Territory on 18 June 2015. The internally-developed project is eligible for a 20-year Feed-in-Tariff and Large Generation Certificates (LGC's) for a period of 15 years. The company expects to start construction in early August and to complete the project before the end of 2015Q3. Photon Energy will be providing the long-term Operations & Maintenance to the PV plant. Once operational, this project will take the total installed base of Photon Energy in Australia beyond the 1 MWp mark.
