

Photon Energy Group delivers solar energy and clean water solutions around the world. Its solar power services are provided by Photon Energy; since its foundation in 2008, Photon Energy has built and commissioned solar power plants with a combined capacity of over 120 MWp and has power plants with a combined capacity of over 90 MWp in its proprietary portfolio. It is currently developing projects with a combined capacity of over 750 MWp in Australia, Hungary, Poland and Romania and provides operations and maintenance services for over 330 MWp worldwide. For more information, please visit [photonenergy.com](http://photonenergy.com).

To strengthen our project development team, we're looking to fill the following position based in our Prague office:

## **Project Manager – Renewables – Photovoltaics – Prague**

### **Key Responsibilities**

- ▶ Manage the development of Photon Energy Group's products including:
  - Utility-scale photovoltaics and its EPC
  - Solar PV projects for own IPP portfolio or "behind-the-meter" electricity production
  - Water desalination, remediation and other business lines for core and alternate markets
- ▶ Analyze project opportunities, and manage opportunity response between internal departments, reporting and recommendation on project Go/no-go opportunities for management
- ▶ Determination, tracking and reporting of key figures of projects
- ▶ Responsible for the management of photovoltaic projects including control of budgets, schedules and risks within the Project Development department up until start of construction
- ▶ Manage third-party relations including contractors, engineers, landowners and grid operators as well as internal support for the success of the project
- ▶ Evaluation and optimization of existing modelling processes (financial and operational)
- ▶ Coordinate project development in the existing core markets and aim to expand to new markets abroad
- ▶ Support the development and implementation of regional project management strategies, processes and governance

### **Qualifications and Experience**

- ▶ University degree or secondary education in technical field
- ▶ Experience in construction and photovoltaic development is an asset
- ▶ Advanced English spoken and written / Czech as an asset

- ▶ Proven project management skills (PMP, PRINCE 2 as an asset), Microsoft Office and financial modelling
- ▶ Self-starter, resistant to stress and reliable in meeting deadlines
- ▶ Excellent organizational and time management skills
- ▶ Availability to travel occasionally

### **Our offer**

- ▶ Opportunity to work in a fast-growing, international renewable energy company
- ▶ Competitive remuneration, reflecting qualifications and experience
- ▶ 5 weeks of holidays per year
- ▶ MultiSport plan – contribution to sport, cultural and leisure activities
- ▶ Company and team-building events
- ▶ Laptop and mobile phone
- ▶ Contribution to educational courses and professional enhancement activities

If you are interested in the position and fulfill the above requirements, please send your CV in English with recent photograph as well as a motivational letter to [careers@photonenergy.com](mailto:careers@photonenergy.com).
