

Photon Energy Group delivers solar energy and clean water solutions around the world. Its solar power services are provided by Photon Energy; since its foundation in 2008, Photon Energy has built and commissioned solar power plants with a combined capacity of over 120 MWp and has power plants with a combined capacity of over 90 MWp in its proprietary portfolio. It is currently developing projects with a combined capacity of over 750 MWp in Australia, Hungary, Poland and Romania and provides operations and maintenance services for over 330 MWp worldwide. For more information, please visit photonenergy.com.

To strengthen our project development team, we are looking to fill the following position based in our Bucharest office:

Solar Project Development Manager

Key Responsibilities

Managing the development of Photon Energy's solar utility-scale and behind-the-meter projects in Romania, including:

- ▶ The preparation and management of photovoltaic projects: budget, delivery schedule and risk supervision throughout each project's acquisition, permitting and design stages up until the start of construction.
- ▶ Analysing and managing the response to project opportunities, provide reporting and recommendations on potential projects opportunities to the management team.
- ▶ Managing relations with third parties, including contractors, engineers, landowners and grid operators, as well as internal support for the success of the project.

Qualifications and Experience

- ▶ Experience in the construction and development of PV or other renewables projects, or land development
- ▶ Fluent Romanian (C1-C2) and good command of English (B1-B2), both written and spoken
- ▶ Project management skills (PMP, PRINCE 2 as an asset)
- ▶ Computer literacy (including Microsoft Office)
- ▶ Self-starter, resistant to stress and able to meet deadlines
- ▶ Excellent organisational and time-management skills
- ▶ Availability for travel

Our Offer

- ▶ Opportunity to work in a fast-growing, international company, within the promising renewable energy sector
- ▶ Competitive remuneration, reflecting qualifications and experience

- ▶ Opportunities for both professional and personal development
- ▶ Company and team-building events
- ▶ Laptop and mobile phone

If you are interested in the position and fulfil the above requirements, please send your CV in English with recent photograph and a motivational letter to careers@photonenergy.com.
