

**Photon Energy Group** delivers solar energy and clean water solutions worldwide.

Working in the renewable energy arena for over 14 years, we continue to expand and are adding new business lines, markets and positions to our team.

We are a team of over 250 employees worldwide, spread across offices in Prague, Sydney, Warsaw, Budapest, Bucharest, Lodz, Amsterdam, etc. Not only do we believe in the potential of clean energy solutions, but we also live by these principles at work and in our employee community. As a public company, Photon Energy Group is transparent in its regular reports to the stock market and open to new suggestions from both employees and investors.

For more information, see [photonenergy.com](http://photonenergy.com).

To strengthen our team, we're looking to fill the following position based in our Prague, Budapest or Bucharest office:

## Solar Plant Portfolio Technical Analyst

Photon Energy is looking for a technical analyst for the Group's proprietary portfolio of PV power plants currently spread across the Czech Republic, Slovakia, Hungary and Romania. The technical analyst will work closely with the EPC and O&M service teams within Photon Energy Group as well as our legal, finance and operations departments.

### Key Responsibilities

- ▶ Economic-technical life-cycle management, including the development of strategies for major repairs, repowering and the value maximisation of land and other assets at the end of the technical life of PV plants
- ▶ Identification and management of solar power plants' technical underperformance
- ▶ Monitoring of technical best practices in the solar power industry
- ▶ Management of internal technical reporting
- ▶ Management of insurance claims
- ▶ Managing the procurement and storage of spare parts
- ▶ Management of relationships with project debt providers in the Czech Republic and Slovakia
- ▶ Supervision of and coordination with the O&M team and other internal service providers in the Czech Republic and Slovakia
- ▶ Management of power plants contracts in the Czech Republic and Slovakia
- ▶ Management of power plants documentation in the Czech Republic and Slovakia

### Requirements

- ▶ Experience in the PV industry and/or the management of a real asset portfolio
- ▶ The ability to absorb, process and integrate legal, technical and financial information

- ▶ Strong administrative diligence and commercial acumen
- ▶ A strong drive to maximise the performance and value of a growing asset portfolio
- ▶ Proficiency in English is a must, language skills relating to the markets covered is important but not a must
- ▶ Some travel required

## **Our Offer**

- ▶ Full-time position with the possibility of an immediate start
- ▶ Opportunity to work in a fast-growing, international renewable energy company
- ▶ Competitive remuneration, reflecting qualifications and experience
- ▶ Performance-based bonus up to 25% of annual gross salary
- ▶ Paid holidays
- ▶ Laptop and mobile phone with unlimited usage
- ▶ Regular team building events, professional courses and training sessions and other exciting benefits

If you are interested in the position and fulfil the above requirements, please send your CV in English with a recent photograph to [careers@photonenergy.com](mailto:careers@photonenergy.com).
