

Photon Energy Group delivers solar energy and clean water solutions worldwide. Working in the renewable energy arena for 15 years, we continue to expand and are adding new business lines, markets and positions to our team.

We are a team of over 300 employees worldwide, spread across offices in Prague, Sydney, Warsaw, Budapest, Bucharest, Lodz, Amsterdam, etc. Not only do we believe in the potential of clean energy solutions, but we also live by these principles at work and in our employee community. As a public company, Photon Energy Group is transparent in its regular reports to the stock market and open to new suggestions from both employees and investors.

For more information, see photonenergy.com.

To strengthen our team in **Bucharest**, we are looking to fill the following position:

Energy Services Coordination Specialist

Responsibilities

- ▶ Coordination and control of the progress of power services, such as the assembly of photovoltaic, energy storage and reactive power compensation systems
- ▶ Execution of technical audits
- ▶ Providing technical support to the sales department
- ▶ Collaboration with specialists and engineers to coordinate and carry out technical studies
- ▶ Preparation and submission of all requests for necessary authorisations for the construction of projects
- ▶ Consulting technical documentation to ensure compliance with applicable government and industry standards, requirements and codes
- ▶ Preparing reports and tracking deadlines regarding the progress of each project

Qualifications and Experience

Essential:

- ▶ Higher specialised studies (electrical or energy engineering)
- ▶ Permissions for exploitation and supervision of electrical devices up to 20 kV
- ▶ Professional experience in on-site PV project execution
- ▶ Experience in following all stages of PV projects
- ▶ Good knowledge of MS Office and orientation in AutoCAD
- ▶ Ability to coordinate complex activities
- ▶ Ability to analyse and solve problems
- ▶ Ability to work well under deadlines

- ▶ Very good communication skills and the ability to work well both individually and in a team
- ▶ English at an intermediate or advanced level (min. B1)
- ▶ Willingness to travel
- ▶ Category B driving license

Desirable:

- ▶ Knowledge of PV Sol, PV Syst, Easy Solar or other PV installation design software
- ▶ Good knowledge of AutoCAD or other engineering software
- ▶ Experience in the implementation and realisation of PV systems over 0.4 MW
- ▶ Previous experience in the PV energy sector

Our Offer

- ▶ Full-time employment for an unlimited period with possibility of immediate start
- ▶ An interesting job at a fast-growing global organisation in the promising field of renewable energy
- ▶ Remuneration according to experience and skills
- ▶ Personal and professional development courses
- ▶ 21 days of paid holiday
- ▶ One CSR day for charitable activity
- ▶ Laptop and mobile phone
- ▶ Private healthcare package

If you are interested in the position and fulfil the above requirements, we would love to hear from you. Please send a CV along with a recent photograph to careers@photonenergy.com.
